### STOCKS.

The whole market was weak yesterday. Belcher opened out with a drop to 87. Net only were the Comstocks off in price, but the Bodie stocks did not come to the front with the activity that has characterized them of late. The Columbus stocks were strong, considering the state of the market. There was a slight improvement in the second session. Belcher advanced to 92, Mexican to 15, Chol to 58. The other stocks held at about the same rates as in the previous session.

The arrest of Kearney, and the evident determination to push his case to a speedy conviction, if possible, and the probability that others of his sort will be dealt with in a like manner by the officers of the law, cause a much better feeling to prevail and a hope for a return of the confidence so much needed in the stock business as well as all others.

## THE GRAND JURY REPORT.

THE VARIOUS COMMITTEES REPORT—THINGS GENERALLY IN A DESIRABLE FIX—A FLOWERY REPORT ON OPIUM SMOKING.

The following report of the Grand Jury of Ormsby County, which was empaneled and instructed on March 1st, was submitted yesterday afternoon in the District Court, Hon. S. D. King, Judge. They have found six true bills of indictments, viz: Two for burglary; three for opium smoking and one for selling opium. The committees appointed to examine the books of county officers made their reports which were adopted and form a part of the document submitted. They are herewith published:

### THE SHERIFF'S OFFICE AND COUNTY HOSPITAL.

To Alfred Helm, Foreman of the Grand Jury: Your committee appointed to inquire into the official actions of the Sheriff of the county, and the management of the county hospital and jail, beg leave to report as follows: We have closely and carefully examined all the books of the Sheriff, kept by the present incumbent, from the beginning of his term to the end of the last quarter, and it is with great satisfaction, as well as some pleasure to us, to be enabled by the evidence found by a thorough examination of all departments of the Sheriff's office, and the action thereof, to assure the people of Ormsby county that they have, in the person and official action of Lloyd Hill a most faithful and efficient officer.

We have also visited the county hospital, made a thorough inspection of the same, and found the management in good hands. The subject of repairs to the county building has received so much attention at the hands of former Grand Juries, that we deem it unnecessary to mention them in this report.

Respectfully, W. O. BROADHEAD, P. CAVANAUGH JR., M. D. HATCH.

### TREASURER, ASSESSOR AND AUDITOR.

To Alfred Helm, Foreman of the Grand Jury: Your committee appointed to examine the books of the Treasurer, Assessor and Auditor, have performed that duty, and find the accounts of each of the above named officers correctly and systematically kept, the vouchers tallying and checking with each other perfectly, and showing that the business and accounts of the county are carefully and honestly attended to. We remain etc., D. L. BLISS, J. M. BENTON, J. E. DEALY.

### EMPIRE'S JUSTICE OF THE PEACE.

To Alfred Helm, Foreman of the Grand Jury: Your committee on city and precinct officers would respectfully report that they have examined the several offices and find them correct and satisfactory in every particular, except the office of Justice of the Peace of Empire Township, whose book of Registration was found defective in many instances—the blanks not being filled out as required; the affidavits made were not to be found, and the book of Registration previous to the year A. D. 1878 was missing. Respectfully, D. G. KITZMEYER, J. Q. A. MOORE, P. B. ELLIS.

### THE COUNTY CLERK.

To Alfred Helm, Foreman of the Grand Jury: Your committee appointed to investigate the books and accounts of J. H. Marshall, County Clerk, submit the following, to wit: We have carefully examined said books and accounts of the official aforesaid and find them to be systematically kept and the fees charged by him to be strictly according to law. We have also carefully examined the bonds of the several county officers and find them sufficient. Respectfully, J. P. MEYER, M. C. GARDNER, N. M. JELFERTSON.

### OPIUM SMOKING.

To Alfred Helm, Foreman of the Grand Jury: We have given the opium law and business our attention. The physician is not expected to prescribe until he has made a diagnosis; neither can our people properly apply remedies to regulate a wrong without first understanding its nature. It is, perhaps, well known that the habit of opium smoking and eating is a fearful vice; effectually and almost irremediably stealing the strength and intellect of our young; making youth a sad mistake—a fearful and unequal struggle—an ever present regret and shame, crushing the very germs of manhood, producing imbecility and premature death. This Oriental monster has planted his feet upon our Western shores, carrying in one hand elysian dreams, in the other the shackles of slavery, leaving in his path stupid and unnerfed victims taken mostly from the ranks of our boys.

This business is conducted so clandestinely that it is difficult to reach. This vice when once fastened upon its victim generates for the vendor a perpetual silence, and so the evidence against him is buried with the vice of his creation. Our Sheriff and his officers are commendably on the alert, but their vigilance cannot avail so long as technicalities and legal squabbles are permitted to thwart the ends of justice and the will of the people. The opium law at best is insufficient to meet the requirements. It should be so amended as to make the finding of an opium smoking outfit sufficient evidence to convict the occupant or occupants; and also to punish the eater and smoker of opium and make proper provision for the wholesome care of the falling and fallen. Our prisons, of necessity, never can have but little of the elements of reformation.

### A REFORMATORY SCHOOL.

As a measure in this direction we earnestly call the attention of our people to the necessity of an enactment authorizing the construction and providing for the maintenance of a Mechanical Reformatory School, to be constructed somewhere within the limits of this State, wherein the useful employments of life can be successfully taught. Such an institution is imperatively demanded. It can be made self sustaining. This is more apparent when we consider that our articles of furniture, agricultural implements, vehicles—in fact, nearly all our conveniences are manufactured elsewhere; that, too, whilst our boys are actually tired of idleness and seek in too many cases reaction and excitement in the fumes of opium. With such an institution the victim of opium might become the ward of the Commissioners of the county in which conviction was had, the Commissioners authorized to indenture to

the management of such Mechanical Reformatory School for a term of years prescribed by law. Thus the germ of this and kindred habits would likely be crushed, the victim redeemed and made a proper conservator of the rights to be practiced and held sacred by an intelligent people only.

Have we transcended our instructions by indulging this suggestive mood? If so, we have but one apology to offer, and that is in the interest of humanity and against a common and clandestine foe.

Let the people at the coming election so speak by their ballots that officers of the law will understand that they mean to guard the best interests of our future sovereigns, and instruct our legislators to make such enactments as will be wholesome and effective. With proper legislation, faithful administration of the laws and a care becoming us as a people we may be able to avert the worst calamities of this fearful vice, and our young criminals will yet bless the power that saved them.

JAMES W. SPURGEON, N. J. DUNBAR, J. H. CHENEY, WM. H. CORBETT.

The foregoing committee desire to return thanks to the county officers for their uniform courtesy extended to them. Respectfully submitted, ALFRED HELM, Foreman

THE REFORM CLUB.—Just at the present the fires of discontent are smoldering in the Reform Club. Dr. McKenzie has expressed himself quite freely regarding the state of affairs in which he has found the Club on his return to this city, and at the meetings he has openly charged the officers of the organization with letting things go to the "sixes and sevens." The members of the Club are also at loggerheads and charge each other with gossiping and drinking. It is said that one of the officers of the organization has been frequently seen playing whiskey poker in a saloon and on one occasion when watched by one of the Club was actually seen to stow away four drinks of sure enough whiskey. Another member is supposed to be taking sly nips of rock and rye behind the door. These things however, need not alarm the earnest and hard working members of the Club who are still filled with hearty zeal for the cause.

Before leaving Carson the Doctor will have eliminated all these objectionable features, and when he has finished his labors there will be nothing to clog the wheels of its progress toward the goal of its hopes. A temperance club must of a necessity have its backsliders and black sheep the same as any organization and the chaff must be separated from the wheat. In the first excitement of starting a few are bound to get in whose backbones weakness to temptation, and at the proper time these people can be quietly dropped from the ranks to make room for the true soldiers in the army of reform. The percentage of those who fail is but small, and the little troubles within the fold are not so serious a matter but that the Doctor's influence can smooth out the wrinkles and set everything straight before he leaves. Not one temperance club in twenty ever was formed without its little trials, and the Carson club cannot expect to be free from such annoyances.

### COMPOSITION ON GUNPOWDER.—The following is a Carson boy's composition on gunpowder, read recently at the public school:

Gun powder is used for duck-shooting and fireworks, and made at Santa Cruz. It can kill anything but cats. When you put anything over gunpowder and touch it off it lifts 'em high. Once two boys put some lighted paper into a ten pound can of powder to make some fire works for their Granddaddy's birthday. The old man heard the fizzle and stuck his head in the door of the wood shed where the powder was. Just then the can burst and landed the old fellow in a mulberry tree in the next block. The wood shed after that was N. G. no good. At the funeral the boys who lit the powder wore their new black pants and rode in a hack that cost \$300. Gunpowder sells for four bits a pound and is found at Fox's. The best kind is a dollar but four bit powder is as good as any to blow up an old man with. The undertaker never got a cent. When the boy finished the teacher patted him on the head and said that when he grew up he would be able to write continued stories for the Golden Era at 50 cents a column.

### THE EVERGREEN MINE.—The evergreen mine has recently been incorporated in the Santa Fe District. J. C. Hagerman, Jerry Schooling and Michael Yager, of Reno, and Gen. Dare, of New York, are interested.

Parties are now in New York to effect a sale of 20,000 shares as a working capital. Two large smelting furnaces are to be erected immediately. Lou Walker, the Superintendent, is in New York now negotiating the sale of the stock. The mine is a well known location and the experts consider it one of the most promising mining properties in the district. The names of the leading men interested sufficiently guarantee that the property will be handled for all it is worth.

### SHOULD JOIN THE REFORMERS.—At half past 3 o'clock yesterday afternoon a drunken man attempted to take possession of Winston's saloon, and inside of ten minutes the excitement attracted an audience of several hundred people. Men ran frantically down the street from as far away from the scene of the trouble as the Wells-Fargo office. The man was finally taken away by an officer and lodged in jail.

### THE CAPITAL EXODUS.—A tramp who was seen the other day moving along the railroad track with his effects tied up in a handkerchief, gave out that he was a capitalist in disguise and had to leave San Francisco in that way to avoid being mobbed. The road agents allowed him to pass without making any critical examination of his exchequer.

## BRIEF MENTION.

Another soft market yesterday.

F. B. Mercer, of the Suir Independent was in the city yesterday.

Gen. Marlette was in the city yesterday. Of course he and Rail got together and called each other horse thieves.

Plummer, the elocutionist, is making a good thing by giving away a book to the homeliest man in town at his entertainments.

No. 3, the winning number at the Opera House raffle, was held by Joe Fisher, of Empire, instead of Al. Marston, as first reported.

One hotel in this city is run by Sharp and another by Small. They should combine, as a sharp and small man can do well in the hotel business.

People who do not wish to patronize Chinese cigars will do well to avoid all boxes labeled "The Chinese must go." Every Chinese cigar maker on the coast knows enough to paste these labels on his boxes.

The Carson Guards, finding no team in the State that wishes to shoot with them, have picked two teams from their own company to contest at Treadways Park on Sunday next. Bob Duncan and J. R. King assume respective commands.

The Orient-Noonday suit will be appealed and the Orient people feel confident of winning it in the end. Holders of the stock will do well to hold on and take no chances in the present prices. In case the appellants win Orient and Noonday will change places on the stock list.

In counting up the collection at the Reform Club gathering the other night a brass check was found on which was stamped, "Good for one drink at the Kearney House bar." Occasionally buttons are put on the plate which the Doctor appropriates and turns in to his wife's work basket. They come mighty handy some times to sew on pants.

THE WEATHER.—The weather yesterday almost tempted the APPEAL to announce that Spring had come. We have raised so many false hopes, however, of late that caution predominates over the disposition to predict. The weather may continue sunny and the air balmy during the balance of the month but possibilities of a rousing old fashion snow storm inside the next twenty-four hours are not least worthy of being considered. There is a bank of clouds behind the Sierras which may at any time bring forth a tempest and big snow. No man who owns a sleigh should think of selling it before the fourth of July.

REMEDY FOR COLD FEET.—A lady writes us to know of some cure for cold feet. Remove the stockings just before going to bed and wash the feet in chloride of potassium after which hold them firmly against a red hot stove until the chill disappears. Three applications a week will be quite sufficient.

THE REFORM CLUB.—At a meeting of the Reform Club held last evening, it was ordered that there be a call of the citizens of Carson at the old Theater to-morrow evening at 7:30 for the purpose of taking into consideration the reorganization of the club.

CORRECTION.—The APPEAL contained an item a few days ago to the effect that the V. & T. road disbursed \$3,500 on pay day. The item was copied from a Virginia City paper. Mr. Loughton informs us that it should have read \$35,000.

MUSICAL.—Miss Lizzie Davis, of Virginia City, teacher of the violin, comes to Carson every Monday and remains until Wednesday. Adults or children wishing to become rapid and correct performers on the violin, and to acquire a profound knowledge of musical time and to read readily, also general musical theory can get all necessary information as to terms etc., by inquiring of C. A. Marston, photographer, or at the Arlington House. Lessons in dancing given by Brown & Davis at Arlington Hall every Tuesday from 11 A. M. till 9 P. M. Social every night after dancing school. m9

A DRY GOODS DREAM.—A woman who goes into M. Cohn's emporium drifts off into a dream of rare and beautiful feminine finery. She sees the best product of foreign looms piled up on the counters, laces, draperies, illusions and elegant toilette materials, such as only the rarest skill can produce and which women of taste admire. The secret of the success of this house lies in the fact that M. Cohn knows how to select the best and is never imposed upon by the eastern houses who work off their inferior goods on inexperienced persons.

PROFESSOR LANGER'S MUSIC CLASS.—Prof. Langer, the well known leader of Piper's Orchestra, has started a music class in Carson. He has already received a number of scholars from the best families in the city, and his thorough methods of instruction give the best of satisfaction. He gives vocal and instrumental instructions and teaches on the piano and violin. He will give lessons on Wednesday of each week. Orders can be left at the APPEAL office. f21-1m

## TAX NOTICE

THE STATE AND COUNTY TAXES ON the net proceeds of the mines and mill and-bearing tailings of Ormsby County, for the

Quarter ending December 31, 1879,

Are now due and payable at the office of the County Assessor. The law in regard to the collection of the same will be strictly enforced. H. H. BENCE, County Assessor Ormsby County.

Dated: Carson City, Feb. 16 1880.

## AL VAYS AHEAD!

The Olcovich Brothers are now offering their stock at such rates that it will pay all thrifty persons to buy goods at their store.

Just opening:

Two hundred pieces new choice prints.

An invoice of E. C. Burt's celebrated kid boots.

Novelties in buttons, hairpins, fancy goods, ruchings, etc., etc.

Irish poplins worth \$2.50 at 75 cents per yard.

Irish poplins worth \$1 at 50 cents per yard.

OLCOVICH BROTHERS.

## WE CAN'T TALK

Without showing the condition of our teeth. Every laugh exposes them. In order not to be ashamed of them let us use that standard dentifrice, SOZODONT, which is sure to keep them white and spotless. No tartar can encrust them, no canker effect the enamel, no species of decay infest the dental bone, if SOZODONT is regularly used. It is a botanical preparation, and its beneficial effects on the teeth and gums are marvelous, as it removes all discolorations, and renders the gums hard and rosy. m7

ATTENTION!—The greatest wonder yet discovered in medicine is Mrs. Dr. Howe's celebrated rheumatism, neuralgia and toothache cures. Would you rather suffer the pain of having a tooth drawn than buy a bottle of Mrs. Dr. Howe's toothache medicine? Mother should not be without it for their infants. A few drops in a little sweetened water to swab a teething baby's mouth will instantly relieve the little sufferer. The medicine does not canterize, and is very pleasant. Sold by all druggists. mb7
